INTERNSHIP

Keltron Advanced Studies: Software Tester

Gained hands-on experience in software testing, including security testing (OWASP), automation with Selenium, and performance testing with JMeter. Focused on improving software quality and security.

EDUCATION

M. Tech

College of Engineering Trivandrum

📅 2021-2023

CGPA: 8.82

B. Tech

Musaliar College of Engineering

📅 2017-2021

CGPA: 8.66

LICENSES & CERTIFICATIONS

Cognizant Agile Methodology Job Simulation on Forage - June 2024

- Demonstrated an understanding of key project management concepts
- Skills: Agile, Teamwork, Scrum Ceremonies, Agile Methodology, Test Cases, Test Scenario

Selenium WebDriver & Java - Automation with Selenium - August 2024

- Certificate of completion - Udemy
- Set up Automation Testing Frameworks concepts and Important Interfaces – WebDriver

PROJECTS

Software Testing Projects:

Topic: Security Testing with OWASP ZAP

- Aim: Implemented security testing for a web application using OWASP ZAP to identify vulnerabilities

Topic: API Testing Using Postman

- Aim: Developed test cases for API endpoints using Postman to validate the functionality, performance, and security of APIs.

Academic Projects:

Main Project

Topic: Food Adulteration Detection Using Machine Learning and Innovative Methodologies

- Implemented algorithms to analyze datasets and classify adulterated food items

Mini project

Topic: Video Violence Detection Using LSTM & CNN

- Developed the solution using Python and Google Colab

SKILLS

- Programming Skills: Core Java, RHEL Linux, SQL(Basics)
- Software Testing Tools: Selenium WebDriver, JMeter, Postman, TestNG
- Project Build Tool & IDEs: Maven & Eclipse IDE
- Database Testing Tools: JDBC, MySQL
- Project Management Tool: Jira Software
